

## **ALLERGEN MATRIX**

**If you are ordering for someone who has a food allergy or intolerance please let us know.**

Our Allergen Matrix is available on request and on our website. It shows which of the 14 legally declarable allergens are contained in every dish on our menu. Because our recipes sometimes change it is important you let us know about any allergies every time you order. Though we recommend that you check the Matrix yourself our team will always be happy to advise, particularly if your allergy is not covered. We have strict procedures in place for taking and preparing allergen orders but you should be aware that allergenic ingredients are present on our premises and those of our suppliers.

**Despite the significant efforts we go to, we cannot eliminate the risk of cross contamination and therefore cannot guarantee any of our dishes are 100% free of allergens.**

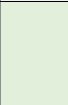

## ALLERGEN MATRIX

### INTRODUCTION

Hello, welcome to our allergy information guide which details all the dishes that we offer and is designed to help you make decisions on the food and drink that you order. Please let a member of our team know if you have an allergy or intolerance to any ingredient, even if you have dined with us before. Our Allergen Statement is present on our menus so that our position on allergens is very clear.

### ALLERGEN MATRIX

This is our Allergen Matrix which contains a list of all the dishes served in our Lounges. At the top we have listed the 14 declarable allergens for your reference. On the right-hand side of the matrix you will find the modification column which allows you to remove certain key allergens from your favourite dishes.

|   |   |
|---|---|
|    | A RED dot means that the dish contains the specified allergenic ingredient. i.e. The ingredient is not included in the menu description but may be part of a sauce.   |
|    | A GREEN highlighted box means the dish can be modified to remove the specific allergenic ingredient. See Modification column and make sure to inform your waiter of your allergy(ies) when ordering at the till.  |
| <b>M</b>  | A black M means the dish "May Contain".<br>The term 'May Contain' is used to highlight where an allergen is not in a recipe or intentionally in a dish, but where the manufacturer of an ingredient believes that cross-contamination may still be a risk. Cross-contamination happens when traces of allergens get into products accidentally during the manufacturing, handling, transport or storage of foods. |
|  | A BLUE Asterisk means that the dish is fried in oil that may also be used to fry other dishes that contains the allergen.   |
| <b>M*</b>   | A black <b>M</b> and a A BLUE Asterisk  together means there is a 'May Contain' risk as well as a fryer cross contamination risk.  |
